Web Applications and User Interface Design

IT 483 - Midterm Exam 100 Points
Due: April 5th, 11:59PM

Description

1. Create a new folder exam1.
2. Create three HTML pages in folder Prog1: index.html, Page1.html and Page2.html.
3. The following should be the same on all three pages:

   The title should be "MNSU - IT483".
   o There should be a navigation bar on the left using global links to point to at least three web sites.
   o One of the three global links must use an image.
   o No other content should be displayed above or below the navigation bar.
   o The body begins with the title text " Web Applications and User Interface Design".
   o Your first and last names should be displayed under the title text.
   o Format of the title text: HTML element h1, centered, blue color, solid underlined.
   o Format of your names: HTML element h2, centered, black color, italic. Font must be different from
   o the title text.
   You must use an external CSS file (you might use the normalized.css) to format the title text and
   o your names.
4. Page index has an HTML link with text "Next Page" that uses a relative link to point to page Page1.
5. Page Page1 has two HTML links with text "Previous Page" and "Next Page" that use relative links to point to page index and Page2, respectively.
6. Page Page2 has an HTML link with text "Previous Page" that uses a relative link to point to page Page1.
7. All the HTML links must be centered at the bottom of the pages.
8. At least one ordered list is displayed on one of the three pages.
9. At least one un-ordered list is displayed on one of the three pages.
10. At least one table is displayed on one of the three pages.
11. Submit your solution to D2L Dropbox by the due date.

   Note: You can include any contents in the three required pages above, but You can not use pages from your project or any other contents related to your project, if you do so you should expect zero points in this exam.
